

Lincoln Manufacturing Center: Elevating the Equipment Trailer Industry

Lincoln Manufacturing Center: Elevating the Equipment Trailer Industry

Timpte is excited to introduce its brand-new Lincoln Manufacturing Center, a 200,000 square-foot facility located in the Industrial Air Park of Lincoln, Nebraska. This \$22 million investment is a cornerstone in Timpte's strategy to enhance its production capabilities and lead the way in equipment trailer innovation. Housing Timpte Equipment Trailers, Thunderstone Manufacturing, and the Timpte Parts Center, this cutting-edge facility is designed to revolutionize trailer manufacturing and meet the growing demands of our customers.

Setting a New Standard: Commitment to Excellence

As the new home of Timpte Equipment Trailers, the Lincoln Manufacturing Center isn't just about scaling up production—it's about redefining the standards of trailer quality. Timpte is deeply committed to creating the best trailers in the market, and this facility is central to achieving that goal. With an expanded production footprint and a host of new capabilities, we are ready to set the bar higher for the entire industry.

Our vertical integration strategy, paired with advanced systems, will ensure that every trailer meets the highest standards of quality, durability, and performance. The Lincoln Manufacturing Center will also play a pivotal role in expanding our product lineup, enabling Timpte to respond faster to market needs and introduce new, innovative trailer designs.

New Innovations: The Future of Trailer Manufacturing

At the heart of the Lincoln Manufacturing Center is an array of advanced manufacturing technologies that will set new industry benchmarks. This facility is designed to deliver higher-quality trailers through state-of-the-art equipment, ensuring precision and efficiency in every step of the production process.

Key features include:

- **Precision Cutting Technology:** Delivers ultra-precise cuts while minimizing material waste.
- **Machining Center:** Enhancing the speed and accuracy of metal machining operations.
- **Advanced Paint Line:** Ensuring flawless powder-coat finishes and improved durability for every trailer.
- **Vertical Integration:** Accelerating response times and boosting industry innovation by streamlining production. With enhanced control over every aspect of the manufacturing process, Timpte can quickly adapt, reduce delays, and improve overall efficiency.
- **Innovative Product Development Capabilities:** The new facility will serve as a hub for creating new trailer models, pushing the boundaries of what's possible in trailer design.

These cutting-edge innovations will allow Timpte to drastically improve production capacity and lead the way in new product development, ensuring that we stay at the forefront of the trailer manufacturing industry.

TimpTE Parts Center:

A Key Piece of the Lincoln Manufacturing Center

The TimpTE Parts Center is moving to its new home within the state-of-the-art Lincoln Manufacturing Center, a move that will significantly enhance both efficiency and customer experience. This modern facility is designed to streamline operations, enabling us to process and ship all parts orders within 48 hours, getting critical components to our customers faster than ever before.

With expanded inventory capacity and cutting-edge logistics systems, the new TimpTE Parts Center will offer improved accuracy in order fulfillment and even quicker delivery times. This upgrade means fewer delays, better service, and the reliable support you've come to expect from TimpTE.

By consolidating trailer production, parts, and support under one roof at the Lincoln Manufacturing Center, we're able to optimize every step of the process. Whether it's a small replacement part or a vital component, our customers can count on faster processing, faster delivery times, and a superior overall experience.

At TimpTE, we're committed to keeping your trailers on the road and your business moving. The move to the Lincoln Manufacturing Center is a key step in delivering on that promise, providing you with peace of mind in every parts order.

Investing in the Future:

Jobs and Growth for Lincoln

Beyond technological innovation, the Lincoln Manufacturing Center will bring economic growth to the region, creating numerous new jobs for the Lincoln community. With the facility set to be fully operational by March 3rd, 2024, TimpTE is committed to contributing to the local economy and becoming an integral part of the community's growth.

A Bold Vision:

Fully Invested in the Industry

TimpTE's \$22 million investment in this new facility reflects our "ALL IN" commitment to the future of the equipment trailer industry. This substantial investment represents more than just growth—it's a signal of TimpTE's dedication to delivering unmatched quality, innovation, and service to our customers. With the Lincoln Manufacturing Center, the possibilities are endless, and we are more committed than ever to building trailers that redefine the market. Whether it's increased production, better trailer performance, or new product innovation, TimpTE is ready to lead the industry forward.
