## CONTACT INFORMATION

### AFTERMARKET & WARRANTY SUPPORT

The same aftermarket parts supply & warranty support that enabled Timpte to become the #1 selling dry bulk commodity trailer in North America is utilized to support our equipment trailer business. The Timpte Parts Center (TPC) can quickly process parts orders to ensure timely delivery to our dealers' facilities and our experienced warranty team will work closely with the dealers to diagnose problems and quickly implement the necessary repairs.

### COMMITTED TO THE FUTURE

Timpte's long-term commitment to the equipment trailer business was reinforced in February 2023 with the announcement of a \$22 million investment in a new 190,000 sq. ft. state-of-the-art manufacturing facility to be constructed in Lincoln, NE. The facility will include Timpte equipment trailer manufacturing operations and freight activities along with the Timpte Parts Center (TPC).
